## Curaden Campus Webinar

### The Oral Systemic Connection: Success Has Never Been Healthier!

This webinar will communicate the link between oral and overall health, putting focus on prevention, rediscovering your passion towards helping patients in all aspects of their health and enjoy working with innovative products.

#### Learning Objectives

- Discovering an Exciting but Overlooked Connection Between Dentistry and Medicine.
- Understand how the mouth and the body are connected to disease and how to prevent it.
- Discover and learn about products that enhance the removal of dental plaque and lead to better overall health.
- Develop a renewed desire to enhance your overall health and that of your patients.

Curden Campus provides dental focused webinars on a monthly basis – focused on Curaden’s top topic: Prevention. The webinar serves the purpose of (further) education for professionals in the

field of dental medicine and offers a place for discussion and exchange. The webinar allows dental students and professionals to receive 1 C.E. by taking the C.E. Quiz at the end of the webinar. You can also watch previous webinars on demand.
